

COSTAATT SOUTH CAMPUS CORE SWITCH RACK

ver 1.0 | Author: Shivam Singh

Internet Routers - Cisco ASR 1001-X for Layer 3 services.

Distribution Switches - Juniper EX2300 which aggregate the connections from the access switches.

WAN Switches - Cisco Catalyst 2960C which "split" the internet hand-offs from the ISP.

Core Firewalls - Fortinet FortiGate 100E which support security functions and SD-WAN configurations.
